

I have attended Columbia High School and was a part of the STEM Academy all four years of high school. I upheld a 4.0 GPA all four years as well and received an academic award my sophomore year of high school. I have played Tennis all four years, been a part of the Robotics team all four years and been in the Marching Band for 2 years. I graduated in the Summer of 2021.

HO JC

I am currently a sophomore attending Boise State University. My career goal is to end up somewhere in the game design field. I want to create things, that is my passion. Being able to tell a story through something that someone else can play is a whole other level of storytelling. Video games are a great form of creativity, and that's exactly what I like. I would describe myself as an outgoing creative person always looking to make something new.

EXPERIENCE

MAY 2019 – AUGUST 2020

CHILD COUNSELOR, NAMPA REC CENTER

Over the summer and during the school year, I worked as a child counselor at the Nampa Rec Center. My job was to watch and interact with over 30-40 kids a day while their parents were working. It was fundamentally a daycare with more activities included.

AUGUST 2020 – JULY 2021

LAWN CARE SPECIALIST, IDAHO4ME LANDSCAPING

For about a year I worked with my dad and his landscaping company to mow lawns and also, I did a few landscaping jobs in backyards.

AUGUST 2021 – JUNE 2022

CREW TRAINER, MCDONALDS

My role as a crew trainer means that I train the new people because I have mastery of all aspects of the job. It is also the first promotion someone can receive working for McDonalds. I did everything you can imagine at McDonalds, serving, cooking, and preparing.

JUNE 2022 – PRESENT DAY

SUPERVISOR, BOISE STATE CONCESSIONS

This is my current job in Boise, Idaho. My role is almost everything. A Jack of All Trades. I help prepare everything for an event, including stocking, taking inventory, and other things. I also work events and supervise for other events at Boise State.

EDUCATION

AUGUST 2017 – MAY 2021

HIGH SCHOOL, COLUMBIA HIGH SCHOOL

I have attended Columbia High School and have been a part of the STEM Academy all four years of high school. I have upheld a 4.0 GPA all four years as well and received an academic award my sophomore year of high school. I have played Tennis all four years, been a part of the Robotics team all four years and been in the Marching Band for 2 years. I graduated in the Summer of 2021.

AUGUST 2021 – EXPECTED GRADUATION (MAY 2025)

UNIVERSITY/COLLEGE, BOISE STATE UNIVERSITY

I am in the middle of my second year at Boise State University in the GIMM Major with a Computer Science Minor. I am also a part of the eSport club at the University. It has been an enjoyable time at the University so far.

SKILLS AND STRENGTHS

- I'm very creative
- I'm a quick learner
- I am easily motivated and tend to stay focused
- I'm fun to talk to and able to talk to other people with ease

ACTIVITIES

I'm very passionate about creating things. Ever since elementary school, I have loved to write. Creating people and places in a different world has always been so exciting to me. Writing is a fun hobby that I've always enjoyed. I also enjoy playing and working on video games. Once I get behind a game, it's hard to stop. It really melds well with my creative mind. In high school I have been a part of the Robotics team that covers the whole Nampa School District for four years. It has been a fun activity that has proved to have many hardships and learning opportunities. Taking our finished product which had mechanical, electrical, and programming aspects to competition was the most satisfying thing that I've done throughout my high school career. I was a part of leadership for two of the four years and was also mechanical lead for two of the four years. I have also been on the tennis team all four years. In my last two years of high school, I joined the Marching Band and that was not a mistake. Marching Band has been a lot of fun and I have enjoyed the competitions and the friends I made within the band.
